# Superintendent's Message

As your Superintendent, it's an honor to work with everyone in our community who is dedicated to ensuring all of our children have opportunities for success, starting with education. Together, we must strive to provide our children with the resources and dedication essential to their young lives from birth, through the school years and into a promising future. I call this joint effort CAPICHE. Each letter stands for an essential influencer in the formation of our youth:

**Career Technical Education** – The traditional formula of high school to university to career isn't the perfect fit for every child. Allowing students to explore their interests and develop career skills, while reinforcing their academics, is the purpose of career technical education.

**Arts** – The arts bring joy and creativity to our students while at the same time requiring rigorous practice, close attention to detail and critical thinking skills.

**Poverty** – Our school children cannot thrive in home environments where the urgency to find stability, food and shelter overshadows their education.

**Intervention** – Schools need the active involvement of parents, local businesses, community leaders and citizens to succeed.

**Civility** – Teaching our students to be givers instead of takers is the foundation from which we must build true servant leaders.

**Homelessness** – Children without the basic necessities of a safe place to sleep at night, a stable family environment and nutrition cannot consistently attend school.

**Early Care and Education** – Children need access to educational opportunities and school readiness programs before kindergarten to give them the best possible foundation for a lifetime of success.

I encourage you to embrace the concepts of CAPICHE in your interaction with children as parents, guardians, educators, family and friends. Even a stranger can choose to help a child in need by becoming a mentor or an advocate.

***We can change lives, one future at a time!***

# The Role and Function of the Fresno County Board of Education

The Fresno County Board of Education works with the Superintendent of Schools to provide services and support to the County’s 32 school districts. The Board is directly responsible for the education of youth in the custody of the Fresno County Probation Department through the Court Schools system, which includes Alice M. Worsley School and the Violet Heintz Education Academy. The board is also responsible for Community Schools which serve students who are out of custody and on probation, and students who are expelled from district programs. The Board of Education has the sole responsibility of reviewing expulsion and inter-district transfer appeals.

The Fresno County Board of Education is also involved in the Fresno County School Trustees Association, Inc., the California County Boards of Education, and the California School Boards Association. Board members must reside in one of the five Fresno County Board of Supervisors districts within Fresno County, and are elected by the voters of the district.

**FRESNO COUNTY  
SUPERINTENDENT OF SCHOOLS**

# About the **FRESNO COUNTY SUPERINTENDENT OF SCHOOLS**

County offices of education are the intermediate level of the public education system in California. Serving 32 school districts and almost 200,000 students, Fresno County Superintendent of Schools has a legislative mandate to ensure that school districts remain fiscally solvent and in compliance with state and federal laws. Moreover, county offices serve as a safety net for students with special needs, offering direct services for migrant, special education, and court and community school students.

County offices also provide a full range of support programs and services. These include professional training and staff development, curriculum, business and finance support, health and pupil personnel services, as well as legislative and public policy leadership and advocacy at the local, state and federal level.

## **Special Education**

The Special Education Department provides individual, small group and classroom instruction that emphasizes the development of cognition, language, social, behavioral, self-help and academic skills to individuals ages 0 to 22 who have various forms of abilities. Needs are addressed within a framework of developmentally appropriate curriculum aligned with state standards. An important goal of our program is to enable students to become independent, valued citizens of their communities. Services are provided in a variety of settings including home, preschool, school and community.

## **Special Education Local Plan Area (SELPA)**

The Fresno County SELPA is divided in four regions with representation from 31 Local Education Agencies (LEAs), including the Fresno County Superintendent of Schools Special Education Operated Programs. The SELPA ensures the delivery of special education programs and services to the students with disabilities residing within our regional boundaries. The SELPA also provides Autism, Positive Behavior Intervention Supports (PBIS) and Mental Health Services to LEAs.

## **Career Technical Education**

The Career Technical Education department manages the Fresno Regional Occupational Program (ROP), which empowers students to make meaningful career choices by providing opportunities for them to explore their interests, develop career skills and reinforce academics through career technical education. Programs include agriculture and natural resources; arts, media and

entertainment; building and construction trades; education, child development and family services; energy, environment, and utilities; engineering and architecture; fashion and interior design; finance and business; health science and medical technology; hospitality, tourism and recreation; information and communication technologies; manufacturing and product development; marketing, sales and service; public services; and transportation with offerings varying from school district to school district. Fresno ROP offers students a wide range of educational benefits, including college credit for qualifying courses, industry certification and internships when appropriate. More importantly, Fresno ROP allows students to develop a passion in what may become their lifelong career.

## **Migrant Education Program**

The Migrant Education Program is a federally funded supplemental program that provides education and support services to identified Migrant Children ages 3-5, 6-18 and 18-21 Out of School Youth (OSY) in the areas of Language Arts, Reading and Math during the regular year and summer/intercessions.

Parental involvement and training are an important component. The Migrant Education Program conducts a minimum of six Regional Parent Advisory Council meetings per year. In addition, each of the 20 participating districts within Fresno County hosts regular Parent Advisory Council meetings.

## **Fresno County Court and Community Schools**

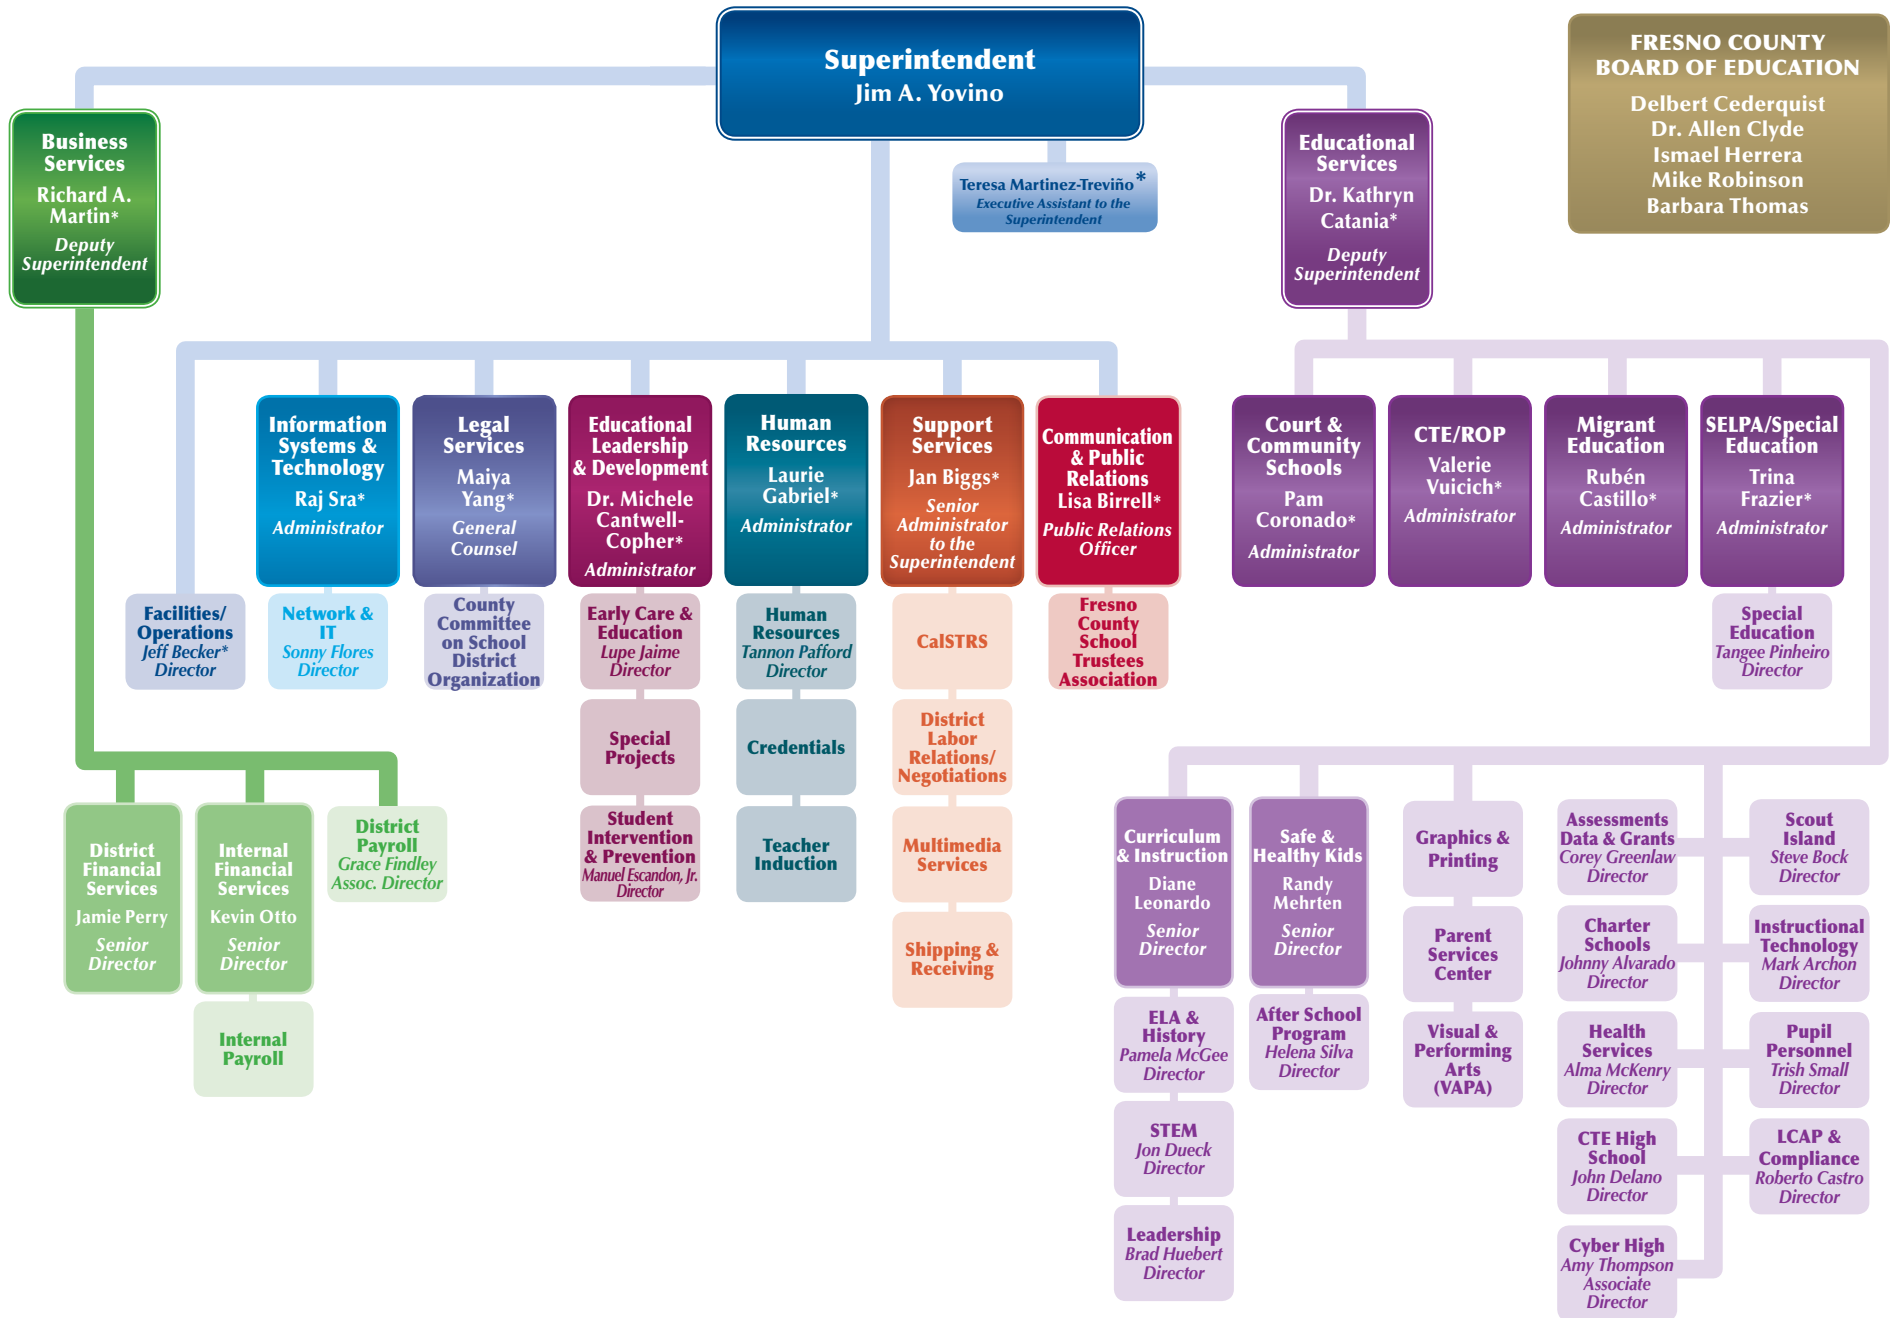

The Court Schools provide educational services to students who are under the jurisdiction of the juvenile court and are in custody at the Fresno County Juvenile Justice Center. The school program is WASC accredited and offers a course of study that leads to a high school diploma.

The Community Schools provide educational services to out-of-custody students in grades 7-12 who are referred by the Probation Department, Juvenile Court, Department of Social Services, and school districts. Most students return to their districts of residence after a semester or a year; however, some complete graduation requirements while enrolled in our program and earn their diplomas.

Our students fit one of three categories: neglected or delinquent, probation referred, and/or expelled.
